

BLS Trainer – Hands On Advanced Medical & Surgical Skills Training Centre

Location: Naupada, Thane

Position Summary

The BLS Trainer will be responsible for conducting Basic Life Support (BLS) training programs and supporting simulation-based healthcare education activities at the Medical Simulation & Skill Lab Centre. The role requires a confident, skilled, and professional trainer who is passionate about teaching life-saving skills and creating a positive learning environment for healthcare professionals and students.

The candidate will work closely with the Academic Coordinator and Executive Officer to ensure high-quality delivery of BLS training programs in alignment with current clinical guidelines and institutional standards.

Key Roles & Responsibilities

- Conduct Basic Life Support (BLS) training sessions, workshops, and skill-based courses
- Demonstrate and supervise CPR, airway management, and emergency response skills during training sessions
- Prepare and maintain training equipment, mannequins, simulation stations, and teaching materials
- Support learner assessments, certification processes, attendance, and academic documentation
- Coordinate with the Academic Coordinator regarding course schedules, training requirements, and participant communication
- Ensure adherence to current BLS guidelines, safety protocols, and institutional training standards
- Foster a professional, engaging, and learner-friendly training environment

Required Skills & Competencies

- Strong teaching and practical demonstration skills
- Excellent communication and interpersonal abilities

- Professional, respectful, and responsible attitude
- Ability to confidently train healthcare professionals and students
- Good organizational and documentation practices
- Ability to work effectively within multidisciplinary teams
- Passion for simulation-based and emergency care education

Preferred Qualifications & Experience

- Certified BLS Instructor preferred
- Background in:
 - Nursing
 - Emergency Medicine
 - Critical Care
 - Paramedical or Allied Healthcare fields
- Prior experience in:
 - BLS training programs
 - Hospital training departments
 - Simulation centres or skill labs
 - Emergency and critical care settings
- Fluent in English and Hindi

Application Procedure

If you see yourself in this role and are passionate about contributing to a growing Medical Simulation & Skill Lab Centre, we would love to hear from you.
