

Full-Time Nursing Trainer – Hands On Advanced Medical & Surgical Skills Training Centre

Location: Naupada, Thane

Position Summary

The Full-Time Nursing Trainer will be responsible for conducting nursing skill training, simulation-based education, and clinical competency programs at the Medical Simulation & Skill Lab Centre. The role requires a passionate, skilled, and professional nursing educator who can provide hands-on training, support learner development, and contribute to maintaining high academic and clinical training standards.

The candidate will work closely with the Academic Coordinator and Executive Officer to support training programs, simulation sessions, workshops, and healthcare education activities.

This role is essential in creating an engaging, learner-focused, and clinically relevant training environment for nursing students and healthcare professionals.

Key Roles & Responsibilities

- Conduct nursing skill training sessions, simulation-based teaching, and clinical procedure workshops
- Demonstrate and supervise hands-on nursing procedures and patient care skills
- Prepare and maintain simulation equipment, mannequins, skill stations, and teaching materials
- Support learner assessments, attendance, certifications, and academic documentation
- Coordinate with the Academic Coordinator regarding training schedules, workshops, and learner requirements

- Ensure adherence to clinical safety standards, infection control practices, and institutional protocols
 - Foster a professional, supportive, and learner-friendly educational environment
-

Required Skills & Competencies

- Strong clinical teaching and practical demonstration skills
 - Excellent communication and interpersonal abilities
 - Professional, respectful, and responsible attitude
 - Ability to confidently train nursing students and healthcare professionals
 - Good organizational and documentation practices
 - Ability to work effectively within multidisciplinary healthcare teams
 - Passion for simulation-based and hands-on healthcare education
-

Preferred Qualifications & Experience

- BSc Nursing / MSc Nursing preferred
 - Prior experience in:
 - Nursing education
 - Hospital training departments
 - Skill labs or simulation centres
 - Clinical nursing practice
 - Experience in critical care, emergency nursing, or simulation-based training will be an added advantage
 - Fluent in English and Hindi
-

Application Procedure

If you see yourself in this role and are passionate about contributing to a growing Medical Simulation & Skill Lab Centre, we would love to hear from you.
